

## Our Goals

- Providing an alternative to today's contemporary arts and drama to churches, the community, individuals, and other organizations;
- Producing original plays to express Biblical truths in ways that are educational and morally entertaining;
- Encouraging young artist to excel in their theatrical and artistic gifts and utilize those gifts to honor God, themselves, their family, their community and the world;
- Improving the quality of life for the forgotten and neglected, the underprivileged and the underserved.

## Our Mission

Chronicles Of Truth Productions' mission is providing community programs to at-risk teens and young adults to improve their quality of life through use of the performing arts, and producing quality entertainment chronicling inspirational truths on the theatrical stage.

## WE BELIEVE...

*...that the nudity, graphic violence and profanity contained in movies has a negative effect on our society, our families and especially our children.*

*...that there is an alternative to Hollywood's constant diet of profanity, disrespect, sex and violence.*

*...that individuals and families are strengthened and resensitized by viewing believable characters handling real-life problems with principles such as honesty, courage and integrity.*

*...that positive, character building images and real heroes seen on stage can reinforce the values and principles you are teaching to your family.*

*...that we are a better choice, a solution providing positive entertainment your children and family can watch without worry.*

*...that each time you support us we are able to create more quality entertainment that strengthens traditional values.*

*...that you DO make a difference.*

This shocking, dramatically, well-written original stage play exposes a closeted culture of sex between individuals who lead "straight" lives. The trend is proving to have skyrocketing statistics on new HIV/AIDS cases for wives and girlfriends unwittingly caught in the double lives of their men. African American women represent 68% of new HIV cases. An alarming one out of 160 black women carries the virus, compared to one in 3000 white women. In our productions, you will never hear vulgarity or provocative language. We offer family-friendly entertainment to all ages providing alternative solutions to help solve life's hard day-to-day issues.

The arts provide students with important opportunity to enrich their recreation and leisure. Students who are educated in the arts develop the capacity to understand and appreciate and enjoy art work and performances. A quality arts education motivates students to seek opportunities to respond to live and recorded art which can expand and enrich their lives. Arts education also aids students in skills needed in the workplace: flexibility, the ability to solve problems and communicate; the ability to learn new skills, to be creative and innovative, and to strive for excellence.

### Our youth program offers the following:

- Basic skills: reading, writing, mathematics (arithmetical computation and mathematical reason), listening and speaking;
- Thinking skills: creative thinking, making decisions, solving problems, seeking things in the mind's eye, knowing how to learn and reason;
- Personal qualities; individual responsibilities as well as self-esteem, sociability, self-management and integrity; and
- At the completion of the program, participants will write, produce and perform in their own "mini-theatre production."
